## Directions for Ordering

Write plainly and give explicit directions as to address and mode of shipment. Shipments will be forwarded exactly as directed, but when without instructions, we will use our best judgment and forward by shortest and safest route. We recommend all herbaceous plants to be shipped by express.

All orders are accepted subject to previous sale and the following terms and conditions:

**PRICES.**—Prices in this catalog cancel all previous lists, catalogs and quotations. Prices are subject to change without notice. **The prices in this catalog include packing, except** on special bulky pieces, for which cost of packing will be extra. Our prices are f. o. b. our shipping station, or for local delivery f. o. b. customer's place if within 10 miles of our Nurseries. Arrangements can be made for distance deliveries by motor trucks of full truck loads if desired.

**STOCK SPECIALLY SELECTED** by customers at the Nurseries will be charged according to the value of the trees chosen, irrespective of catalog list price.

**QUANTITY.**—Lots of 5 and 50 will be furnished at the 10 and 100 rates respectively. Where no price per single plant is quoted lots of less than five plants of any one sort are sold at the 10 rate, plus 50%.

**PACKING.**—All goods are thoroughly packed, insuring best protection while in transit. **ALL PACKING CHARGES ARE INCLUDED IN OUR LIST PRICES**, except for specimen stock of unusual size, when the packing will be at cost.

**TERMS, CASH WITH ORDER**, except to persons who satisfy us as to their responsibility, when accounts will be due in 30 days.

## Forwarding and Shipping

**SHIPPING SEASON** opens about March 1st in the Spring and August 1st in the Fall.

**INSPECTION AND FUMIGATION.**—Our stock is regularly inspected and certificate will be sent with each shipment. Stock will be fumigated when requested or when the State laws require it.

**GUARANTEE AND CLAIMS.**—All goods are guaranteed true to name, full count, up to grade, and in good condition when shipped. Any plant proving untrue to name will be replaced. Our stock is of the highest grade, thrifty and well grown, insuring its success if properly cared for after transplanting. As we have no control over its usage after it leaves our hands properly packed and in good condition, we can give no guarantee on the life of stock; however, any just complaint will receive our utmost consideration. Claims must be made within five days after receipt of goods. Stock delivered as per order and in good condition is not returnable.

**GOODS IN TRANSIT.**—All goods are at purchaser's risk after they are delivered to the forwarding companies and we receive their receipt for the shipment in good condition. **Claims for damage while in transit must be made to the delivering company.** Have delivering agent note the damaged condition on the freight bill, promptly present your claim to the transportation company and send copies of all papers so we can help you to secure prompt settlement.

**ADDRESS** all correspondence and orders not to individuals, but to

The Entrance to Andorra

## An Invitation to Andorra

**T**HOSE who are interested in landscape art and the beauty of trees and plants out-of-doors are always cordially welcome at Andorra. Excellent highways through this beautiful rolling section of Pennsylvania, with its charm of Colonial manor house and country-place, offer inviting roads from every direction to visitors in motor cars. Train connections over the Chestnut Hill branches of both the Pennsylvania and Reading Railroads make Andorra a two-hour run out of New York and a half-hour from the heart of Philadelphia; from Chestnut Hill Stations a ten-minute ride on the City Line trolley cars brings one to the gates of the Nurseries.

Situated at the northern entrance of the far-famed Wissahickon Drive through Fairmount Park to Philadelphia, Andorra Nurseries are located in a rolling country offering a great variety of soils and exposures; with this great advantage of soils is coupled a range of temperature from the twenty-below-zero days of the Winter of 1917 to the hot dry Summers of this latitude, so that Hardy Trees, Evergreens and Shrubs, grown at Andorra, assure their success in every part of this country of varied climatic conditions to which their habit of growth fits them.

Each Spring and Autumn a catalog is issued which gives to those who have never visited Andorra a worded picture of the hundreds of varieties and sizes of trees and shrubs to be found growing here, and in these catalogs will be found articles which deal with various subjects of planting and landscape design of interest to the lover of things beautiful out-of-doors.

Beautiful in Its Setting of Trees and Shrubbery Borders

## Country and Suburban Homes

**W**ITHIN the last decade there has been a tremendous exodus from the cities in answer to the appeal of the country and the call of life out-of-doors which has resulted in the rapid development of country and suburban homes of large and small extent. The desire of every owner is to create an appropriate setting for his home in the midst of gardens and beautifully planted grounds.

To those interested in such planting Andorra Nurseries, over 1000 acres in extent, offers the selection of a stock of Evergreens, Trees, Shrubs, Vines and Hardy Perennials complete in assortment and unequalled in quality.

In 1886 we established a policy of growing exclusively ornamental nursery stock in wide rows with room for individual development and by frequently transplanting creating a fibrous root system which ensures the success of our trees and shrubs. Our stock is not to be compared with that ordinarily offered by other nurseries which do not use the same care or time in handling.

We have furnished stock for most of the famous large estates and parks in this country and to the most prominent landscape architects and gardeners, than which there can be no higher recommendation.

Evergreen Planting Which Softens the Foundation of House or Terrace

## The Decorative Value of Evergreens

THE beauty of deciduous trees and shrubs is wrought in stately lines of trunk and arching branch, of opening bud, gay flower and cool green of spreading leaf. These aptly suit the spirit of our changing seasons, while through nature's shifting scenery from flowery Spring to bronzing Autumn and the white of Winter, the Evergreens sound a pleasant note of contrast in form and color among their deciduous neighbors.

Varying in form from the spreading Yews and Junipers to columnar Cedar and Japanese Cypress they are especially appropriate in planting close to the house and garden, giving a proper setting to the architectural design and lending warmth of color to the Winter scene.

The Pines, Spruces, Firs and Hemlocks are pre-eminently fitting in border, screen or windbreak, where they form a beautiful background for smaller flowering trees and shrubs planted in front of them. Their pleasing color note of fresh needles in Spring and their interesting form accent the beauty and grace of Summer flower and the tracery of Winter twig and branch.

The Evergreens are later in starting into growth than deciduous trees and one of the most favorable times for Spring planting is in April and May. All of our Evergreens are lifted with a large ball of earth and fibrous roots,—“B & B.”

# Evergreen Trees

All Evergreens are lifted with ball and burlapped.

**ABIES concolor.** Per 10 Per 100

**WHITE FIR.** Tall, rapid growing; hardy; rich silvery needles. For specimen or groups.

2½ to 3 ft. ....	Each \$6 00	\$47 50

**J. virginiana, var. tripartita.**

**SHRUBBY JUNIPER.** A spreading evergreen with upright branches of graceful form.

3½ to 4 ft. ....Each \$7 50

4 to 5 ft. ....10 00

Rock Garden of Evergreens and Hardy Perennials

## Evergreen Rock and Wall Gardens

**T**HIS interesting form of garden in its many adaptations can be made a charming feature of nearly every place.

A sloping bank set with scattered boulders, a dry retaining wall or an old-fashioned stone fence may serve as the basis of a rock garden made gay with bright-flowered Hardy Perennials from early Spring until late Autumn.

In Winter the Rock Garden will have an individual interest if liberal use is made of trailing Junipers and Savins, spreading Yews, dwarf Mountain Pines, Adams Needle and other low growing Evergreens together with Evergreen Shrubs like the Azaleas, Quince Berries, Evonymus and Loniceras, intermingled with the gray and brown of rocks.

A few of the Hardy Perennials whose flowers find an admirable setting among the Evergreens are Achillea, Ajuga, Alyssum, Aquilegia, Arenaria, Armeria, the hardy Asters and Chrysanthemums, Cerastium, Ceratostigma, Coreopsis, Dianthus, Gypsophila, Iris species and Fleur-de-Lys, Iberis, Myosotis, Pachysandra, Phlox subulata, Primula, Sedum, Saxifraga and Vinca.

The photograph above well illustrates the charming effect of a border of large growing Evergreens, small flowering trees and shrubs which serve as a background for the Rock Garden and extend a welcome to inviting shaded walks beyond.

**MAGNOLIA.** See also pages 58 and 59.

**M. grandiflora.**

**EVERGREEN MAGNOLIA.** Hardy to Philadelphia. Bushy white flowers showy against glossy dark green foliage.

3 to 4 ft. with ball .....Each \$7 50

**PICEA alba.** (See *Picea canadensis*).

**P. Alcockiana.**

**ALCOCK'S SPRUCE.** Tall, pyramidal; dark green foliage, glaucous beneath. Handsome as a lawn specimen.

**Specimens.** 3 to 4 ft. ....Each \$7 50

**Specimens.** 7 to 9 ft. ....\$12.50 to 20 00

**P. canadensis.** (alba.)

**WHITE SPRUCE.** Tall, pyramidal, very shapely; foliage silvery-blue. Excellent for grouping.

2 to 2½ ft. ....Each \$2 50

3½ to 4 ft. ....3 50

4 to 5 ft. ....4 00

8 to 10 ft.	..... 10 00	80 00
10 to 12 ft.	.....\$20.00 to 25 00	

## Evergreen Trees for Windbreaks and Screens

By properly planting trees of quick-growing varieties in combination with slower growing, more permanent sorts, it is easily possible in a few years' time effectively to blot out objectionable views which may mar the outlook from house or lawn, at the same time by planting flowering trees, or shrubs on the lawn side, producing an added attractive landscape feature.

The trees, found in this category, comprise varieties which are valuable for the purpose, on account of their quick-growing qualities, as the Pines and Spruces, and for the charm of gorgeous fall coloring. The admixture of deciduous flowering trees, such as the Dogwoods, Thorns and Oxydendrons, with this group is advisable. In any mass planting of trees the quickest and most satisfactory results are obtained when the spaces between the trees are planted with an undergrowth of spreading shrubs.

**PSEUDOTSUGA taxifolia. (Douglasii.)**

<b>DOUGLAS FIR.</b> Beautiful soft, dark green foliage. Can be used for hedges.			Per 10

Boxwood Hedges in a Formal Garden. A Tall Hedge of Japanese Cypress Encloses a Portion of the Garden in the Background.

## Hedges

THE treatment of formal terrace and garden, or grounds of small extent, where it is desirable to accentuate the architectural character of the design by including in it the grounds about the house, demands the trim neat lines of the clipped hedge. The line and form of masonry or wall is agreeably emphasized by the light and shade of hedges placed in proper relation, while the flowers and coloring of the garden are thrown in pleasant relief against the textured green of enclosing hedges. The beautiful old Yew hedges of England find their replica in our country in the Hemlock (*Tsuga*), Japanese Cypress (*Retinospora*), and many other evergreens, while the charm of green-hedged fields and lawns can easily be created with the Hawthorn (*Crataegus*) and field Maples.

A walk through Andorra's hills reminds us of a few trees and shrubs admirably adapted to hedge planting, giving an idea of the great variety from which we can choose. Plants classed under medium height may sometimes be trained into high hedges, or may be clipped to a low height, dependent upon circumstances and vice-versa. The effect desired, and conditions, vary so greatly in hedge planting that we can advise you much more definitely if you will write giving us the requirements of your particular problem.

Formal Evergreens Seen Against a Dark Green Hedge

### For Low Hedges

- E Dwarf Cypress (*Retinospora plumosa* var. *sulphurea*).
- E Japanese Yew (*Taxus cuspidata*).
- E Japanese Evergreen Azalea (*Azalea amœna*).
- E Boxwood (in many varieties).
- E Evergreen thorn (*Cratægus pyracantha* var. *coccinea*).
- E Japanese Holly (Varieties of *Ilex crenata*).
- Wilson's Barberry (*Berberis Wilsonii*).
- Japanese Barberry (*Berberis thunbergii*).

### For Hedges of Medium Height

- E American Arborvitæ (*Thuya occidentalis*).
- E Siberian Arborvitæ (*Thuya occidentalis* var. *Wareana*).
- E Golden Japanese Cypress (*Retinospora plumosa aurea*).
- Field Maple (*Acer campestre*).
- Hawthorn (*Cratægus crus-galli*).
- Barberry (*Berberis vulgaris*).
- Rose of Sharon (*Hibiscus syriacus*).
- Ibotan Privet (*Ligustrum Ibotæ*).
- Regel's Privet (*Ligustrum regelianum*).
- California Privet (*Ligustrum ovalifolium*).
- Buckthorn (*Rhamnus cathartica*).

### For High Hedges

- E Norway Spruce (*Picea excelsa*).
- E White Pine (*Pinus strobus*).
- E Japanese Cypress (*Retinospora plumosa*).
- E Gray Cypress (*Retinospora squarrosa*).
- E Hemlock (*Tsuga canadensis*).
- Beech (*Fagus sylvatica*).
- Hornbeam (*Carpinus caroliniana*).

E Denotes Evergreen varieties.

**RETINOSPORA obtusa, var. compacta.**

**COMPACT CYPRESS.** Bushy form; rich green color; low-growing. For formal use or planting at base of house and terrace.

		Per 10
4 to 4½ ft. ....	Each \$10 00	80 00

Balled and Burlapped—"B & B."

THE prime essential of success in transplanting trees and shrubs is that they have a system of fine fibrous roots which are obtained at Andorra by frequent transplanting and pruning. Most deciduous trees and shrubs when they drop their leaves are in a dormant state, and do not require the same degree of care in handling as the evergreen trees which always bear their leaves, and so are always exposed to untoward conditions of drought and wind. To insure the success of our evergreens in shipping, their compact balls of fine fibrous roots are carefully lifted from the ground still surrounded by the damp protecting soil in which they grew, and securely wrapped in burlap, so that they are never exposed to the danger of drying out in shipment, and they will reach the purchaser in perfect condition.

Broad-Leaved Evergreens Lend an Air of Welcome Cheeriness Both in Summer and Winter

## The Year-Round Beauty of Evergreen Shrubs

NATURE has been liberal in the number of shrubs which are not only beautiful in the flush of Spring bloom and green leaf through the Summer, but which have the added charm of holding their deep green foliage through the cold Winter months, making cheery the Winter landscape.

With the strong appeal of out-of-doors answered by the year-round country and suburban home we have learned a great appreciation of these shrubs whose evergreen foliage softens and warms the bleakness of Winter. Most of them are hardy in protected places as far north as Boston, while from the latitude of Long Island south they can be used freely in almost any situation.

These shrubs are characterized by richness of deep green leaf, showy blossom and handsome berry and so are admirably adapted to planting near the house and gardens against background-borders of evergreen trees and the larger growing deciduous shrubs—there throughout the year their constant changing beauty is a never-ending pleasure.

Among the most beautiful in flower are the hardy Azaleas and gorgeous Rhododendrons, while the Hollies, Quince Berries and Evonymus have an added charm of bright berries while others are equally attractive in flower and foliage. They are best transplanted in April and May, or August and September.

# Evergreen Shrubs

## ABELIA grandiflora.

**ARBUTUS SHRUB.** Dwarf; semi-evergreen; glossy foliage. Flowers continuously from July till frost, arbutus-like pink. Use in masses.

Field-grown .....	Each \$1 00	Per 10 \$6 50	Per 100 \$50 00

3½ ft. stem x 20 to 24 in. head .....	20 00

Also short stemmed, broad headed standards with crowns from 2½ to 4 ft. spread, at \$75.00

Stately Old Boxbush Adds an Indefinable Charm to this Doorway

## Boxwood

**T**HE Box-bordered walk and flower garden, or doorway flanked by stately specimens of Boxwood create a feeling of age and charm of inestimable value in our gardens, and in the appearance of our homes. Andorra has long been famous for its rare old Boxbushes of large size that at once give character to the new place. Then, too, we have Boxwood standards, pyramids and bushes for hedges and edging in all sizes.

The recent prohibition on imported Boxwood by the Federal Horticultural Board will in no way affect our offerings, as the Boxwood which we list is growing at our nurseries. Appreciating the requirements of our patrons for Boxbush in large sizes, we set aside and have grown, with frequent transplanting in our nurseries, large quantities in many varieties, so that the risk and expense of collecting large Box from old places is obviated to those who desire large specimens for immediate effect. These large Boxbush are from 5 to 7 feet in height and almost as broad; they have taken on the beautiful modeling of billowy contour and rich appearance of the pompous guardians of some old Colonial house or garden; these plants from our nurseries move with a tremendous ball of fibrous roots and loam.

**BUXUS sempervirens, var. augustifolia variegata.**

**GOLDEN TIPPED BOX.** Free open growth.

Good massed with smaller evergreens.

		Per 10	Per 100

## Rhododendrons

**B**EST known of flowering Evergreen Shrubs, the "Rose Tree"—so called by classic Grecians—stands preëminent with its wealth of gorgeous blooms in rich color against the cool green leaves. There is a popular belief that Rhododendrons can be grown only in peaty soil; on the contrary, the only factor limiting their use in temperate regions is the fact they will not thrive in soils strongly impregnated with lime, in which case it is necessary to ameliorate the condition of the soil with peat and leaf mould, otherwise most good garden soils are admirably adapted to the growth of Rhododendrons. The most important element of success with Rhododendrons is to protect them against the cutting winds of Winter by thick borders of other evergreens and

Rhododendrons are Most Beautiful when Planted  
in Masses, Their Blending Shades and Tints  
Gorgeous in Their Richness

deciduous shrubs, and to keep their roots moist in Summer by a heavy mulch of leaves. With these two simple needs in mind, no place need lack the beauty of the handsome Rhododendron.

Andorra Rhododendrons are grown on open hillsides, and can be depended upon to produce satisfactory results which cannot be expected of tender imported plants. The following list comprises varieties carefully selected for their hardiness and beauty of flower. Our stock comprises over 20,000 plants grown on the open hillsides of Andorra so that they are absolutely acclimated to our severe Winters and hot Summers; their hardiness and vigor are well proven.

# Rhododendrons

## HYBRID VARIETIES—ANDORRA-GROWN

### RHODODENDRONS, Abraham Lincoln. Rosy

#### Crimson—

2 ft. ....	Each \$5 00
2½ ft. ....	7 50

Shade Trees in Groups at Edge of Lawn that Shut Out Disagreeable View Beyond

## The Beauty of Shade Trees

NATURE opens the Spring with a wealth of soft green foilage, interspersed with the brilliant purple bloom of the Judas Tree and rich red flower of the Swamp Maple, great white trusses of bloom on the dignified Horse Chestnut, the dainty white and pink flowers of the Apples and Cherries, and not satisfied with these, she gives us from week to week, bloom on other shade trees to continue the riot of color of our Spring shrubs. No other feature of the tiny suburban bungalow or spacious country place is more necessary to its real enjoyment and comfort than the shade afforded in Summer by properly planted trees on street and lawn; no other feature of the out-of-doors adornment of our American homes adds so much to their general attractiveness and real value, as the trees which furnish a setting for the house and garden.

For planting singly or in groups near the house, for their shade or for landscape effect on lawn or meadow, there are the Maples, Lindens and Oaks in many varieties, and the graceful Elms suitable for the widest range of soils. Of quicker growth, no trees can compare with the symmetrical Norway Maple, giving a rich dense shade, and the spreading Oriental Plane of graceful foliage and interesting gray-green branches, the Willows with their graceful drooping branches and the Tulip Tree with its wonderful rich foliage and gorgeous bloom. Of the slower growing varieties there are the Beeches (Fagus) and the beautiful Maidenhair Tree, both of which make beautiful specimens.

Specimen Trees in Groups at Edge of Lawn that Shut Out a Disagreeable View Beyond

**ACER dasycarpum.** (See *Acer saccharinum*.)

## SPECIMEN JAPANESE MAPLES

These characteristically Oriental slow growing dwarf trees have a distinct individuality in richness of form and color. Some varieties make most attractive sorts for Japanese pots or tubs on the terrace; other varieties make interesting specimens and groups or they are effectively massed in the evergreen border. Our large specimen trees are particularly interesting.

ALL JAPANESE MAPLES LIFTED WITH BALL—"B. & B."

**ACER palmatum (polymorphum).**

**JAPANESE MAPLE.** Dwarf, dense growing; bright green foliage, scarlet to purple in Fall. Rich as specimen or with evergreens.

4 to 5 ft. x 3 to 4 ft.	Each \$15.00 to \$17 50
5 to 6 ft. x 4 ft. ....	\$20.00 to 25 00
6 to 7 ft. x 4 to 5 ft. ....	\$25.00 to 30 00
8 to 10 ft. x 5 ft. ....	\$35.00 to 50 00

**A. palmatum, var. aureum.**

**GOLDEN JAPANESE MAPLE.** Handsome yellow foliage. Mass for color tone in mixed planting. Dwarf.

3 to 4 ft. .... Each \$10.00 to 25 00

**A. palmatum, var. atropurpureum.**

**BLOOD-LEAVED JAPANESE MAPLE.** Small, compact; foliage blood-red to purplish-red. Good specimen.

10 to 12 ft. ....	3 50	27 50	

Uniformity of Variety and Size Gives the Perfect Avenue Planting

## Street Trees and Civic Planting

**N**O finer monument to civic beauty exists than the trees which arch the streets and avenues of our older cities and towns, no other one thing adds as much to the beauty and dignity of our public parks and grounds as their stately shade trees. These stand as a grateful memorial to the civic pride and forethought of our public-spirited citizens.

A wide range of trees offers for selection as street trees; appropriate sorts for suburban planting where there is ample room for root-development are the Maples, White and Green Ash, Tulip Tree, Pin Oak, Red Oak, Gingko and Elms. Where the parking space is more restricted no trees can compare with the rapid-growing Norway Maple and Oriental Plane, as they seem better able to withstand extremes of heat and drought than any others.

The parking space between curb and sidewalk offers an opportunity for planting not only trees but flowering shrubs and Evergreens and gives added protection to the suburban home against the noise and dust of street or road.

For planting of parks and public grounds the range of trees and shrubs is practically unlimited and in such plantings the value of the Evergreens for their richness and color should be constantly kept in mind.

**FAGUS americana (ferruginea).**

**AMERICAN BEECH.** Handsome symmetrical tree; smooth gray bark. Excellent for screen and lawn or specimen. For high hedges when clipped.

		Per 10	Per 100

## MAGNOLIAS—FLOWERING TREES

Among the most beautiful flowering trees are the Magnolias, some of them attaining a height of 50 to 60 ft. as far North as New York. Their flowers are pure white and some are very fragrant.

**MAGNOLIA.** See also pages 14 and 59.

**M. acuminata.**

**CUCUMBER TREE.** Yellowish-white June flowers. Deep scarlet cucumber-shaped fruit.

		Per 10	Per 100
5 to 6 ft. ....	Each \$2 00	\$15 00	
7 to 8 ft. ....	3 50	28 00	
14 to 16 ft. ....	5 00	40 00	

**M. glauca.**

Magnolia Glauca

**SWEET  
MAGNOLIA.**

A beautiful tall-growing shrub or small tree thriving in damp situations, but equally happy in any good soil. The foliage is a rich glossy green and partly evergreen. The cup-shaped fragrant flowers with wax white petals are the crowning glory of this handsome plant. We cannot too highly recommend it.

2 to 3 ft. ....	Each \$2 50	20 00	\$160 00
3 to 4 ft. ....	3 00	25 00	200 00
4 to 5 ft. B. & B. ....	4 00	30 00	
5 to 6 ft. B. & B. ....	5 00	40 00	
6 to 7 ft. B. & B. ....	6 50		

**M. grandiflora.** (See *Evergreen Trees*.)

**M. hypoleuca.**

**PURPLE MAGNOLIA.** From Japan, gorgeous flowers and attractive foliage.

8 to 10 ft. B. & B. ....	Each \$6 00	45 00
10 to 12 ft. B. & B. ....	7 50	60 00

**M. tripetala.**

**UMBRELLA TREE.** Open headed, spreading; large leaves and blossoms.

4 to 5 ft. ....	Each \$2 00	15 00
6 to 8 ft. ....	3 50	28 00
10 to 12 ft. ....	4 50	36 00

**MAGNOLIAS—CHINESE SPECIES**

Small trees flowering early, the blossoms magically appearing over night. Excellent for the garden or intimate planting near the house and seen to best advantage against a dark background of evergreens. Very fragrant. Any planting devoid of Magnolia bloom in early spring loses much of the charm of our first bloom in the shrubbery or as specimens. Special attractiveness is added to garden entrances and pathways when these beautiful trees flank the entrance. Either grown in bush form with their branches down to the ground or trained to simple stems when their dense branching and heavy foliage form a rich canopy and over-arch the pathway.

**MAGNOLIA Alexandriana. (Hybrid.)**

**ALEXANDER'S MAGNOLIA.** Hardy and vigorous. Large, glossy foliage; deep cup-shaped pink tinted flowers in April.

4 to 5 ft. B. & B. ....	Each \$7 50
5 to 6 ft. B. & B. ....	10 00
7 to 8 ft. B. & B. ....	15 00

**M. conspicua.**

**CHINESE WHITE MAGNOLIA.** Noteworthy for its large white flowers. Try it massed with Hemlock.

5 to 6 ft. B. & B. ....	Each \$10 00
6 to 7 ft. ....	15 00

**M. Lennei (Hybrid of Magnolia Soulangeana).**

**LENNE'S MAGNOLIA.** Strong-growing, purple colored, cup-shaped, April blossoms against dark green foliage.

6 to 7 ft. B. & B. ....	Each \$10 00
8 to 10 ft. B. & B. ....	\$20.00 to 35 00

**M. Soulangeana Hybrid.**

**SOULANGE'S MAGNOLIA.** Hardy, vigorous. Large, glossy foliage; pink, cup-shaped flowers in April. One of best garden or specimen plants.

4 to 5 ft. B. & B. ....	Each \$7 50
6 to 7 ft. B. & B. ....	10 00
7 to 8 ft. B. & B. ....	15 00
8 to 10 ft. B. & B. ....	\$25.00 to 50 00

A few extra large specimens from 12 to 20 ft. in height, broad and heavy, at from \$50.00 to \$150.00 each.

**M. Soulangeana, var. nigra.**

**SOULANGE'S PURPLE MAGNOLIA.** Showier than preceding, inasmuch as flowers are dark purple on outside.

4 to 5 ft. ....	Each \$7 50
5 to 6 ft. ....	9 00

**M. stellata (Halleana).**

**HALL'S STARRY MAGNOLIA.** Low, slow-growing, bushy variety. Very early; pure white showy flowers. For the garden or border.

2 to 3 ft. ....	Each \$7 50
3 to 4 ft. ....	10 00

**NYSSA sylvatica.**

**SOUR GUM, TUPELO.** Hardy tree with flaming scarlet Fall foliage.

5 to 6 ft. ....	Each \$2 50
6 to 8 ft. ....	3 50

**OXYDENDRUM arboreum. (Andromeda.)**

**SORREL TREE.** One of the most ornamental small trees in cultivation; valuable in shrubberies, and beautiful in combination with *Leucothoe Catesbaei*, when the latter is used as an *undergrowth*. Of small size, with thick, oblong foliage of dark glossy green, which is highly attractive at all seasons, especially in autumn, when it changes to brilliant crimson. The flowers, in July, are borne in dense panicles resembling lily-of-the-valley blooms.

		Per 10	Per 100
3 to 4 ft. ....	Each \$1 00	\$8 50	\$65 00
4 to 5 ft. ....	2 00	15 00	100 00
5 to 6 ft. ....	3 00	22 50	
6 to 7 ft. ....	3 50	27 50	
Specimens. 7 to 8 ft. B. & B...	\$5.00 to 10 00		
Specimens. 8 to 10 ft. B. & B...	\$10.00 to 25 00		

**PARROTIA Jacquemontiana.**

**PERSIAN IRON WOOD.** Dense, with spreading branches; round top, brilliant Fall foliage.

2 to 3 ft. ....	Each \$2 50	20 00
-----------------	-------------	-------

**PERSICA Amygdalus vulgaris, var. alba plena.**

**DOUBLE WHITE-FLOWERED PEACH.** Pretty in formal garden or with evergreens in border.

5 to 6 ft. ....	Each \$1 50	12 50
6 to 7 ft. ....	2 00	17 50

**P. vulgaris, var. sanguinea plena.**

**DOUBLE RED-FLOWERING PEACH.** Similar to above, with very beautiful large double red flowers.

4 to 5 ft. ....	Each \$1 50	12 50
-----------------	-------------	-------

**PLANERA japonica.**

**JAPANESE WATER ELM.** A rare tree.

10 to 14 ft. ....	Each \$5.00 to 7 50
-------------------	---------------------

## Deciduous Trees for Screens and Windbreaks

By properly planting trees of quick-growing varieties in combination with slower growing, more permanent sorts, it is easily possible in a few years' time effectively to blot out objectionable views which may mar the outlook from house or lawn, at the same time by planting flowering trees, evergreens or shrubs on the lawn side, producing an added attractive landscape feature.

The trees, found in this category, comprise varieties which are valuable for the purpose, on account of their quick-growing qualities, as the Birches and Poplars, or for the charm of gorgeous fall coloring, as the Pin Oak. The admixture of long-lived trees and flowering sorts with this group is advisable. In any mass planting of trees the quickest and most satisfactory results are obtained when the spaces between the trees are planted with an undergrowth of spreading shrubs.

Oriental Plane Tree.

**ORIENTAL PLANE.**

The proprietor of the Nurseries saw this tree in Europe many years ago and, realizing its great value as a street tree admirably adapted for city planting, introduced it extensively in this country. We have made a specialty of growing the Oriental Plane, spaced wide apart in the nursery rows, insuring a fine symmetrically-developed top, while frequent transplanting creates a thick fibrous root-system. Our trees are immeasurably superior to those grown without the care which we exercise, and will produce the quickest results.

This rapid-growing, symmetrical, wide-spreading tree, together with the Norway Maple, are most suitable for city street planting. Attractive trunk and foliage. Rapid grower; fine, symmetrical head. Not bothered by insect pests or smoky, dusty locations.

**PLATANUS orientalis (acerifolia).**

		Per 10	Per 100

-----------------	-------------	-------

Flowering Crab Apples Are a Mass of Pink and White in Spring

## Flowering Trees

**I**N instances where it is not desired to plant the larger growing shade trees, a wealth of smaller growing trees is at our command, many of which have the added attraction of a profusion of beautiful flowers in Spring or Summer. Especially to be recommended are the Flowering Cherries (*Cerasus*), the white and red flowering Dogwoods (*Cornus florida*), while the rare *Cornus Kousa* of Japan is worthy of the better acquaintance of all. The Hawthorn (*Crataegus*) needs no better introduction than that which its place in English literature has given it. Standing quite alone in their wealth of gorgeous bloom in early Spring are the many varieties of Magnolias, their rich wax-like petals ranging in color from pure white, through soft tones of pink to rich deep crimson, in full, luxurious wide-flung blossoms. These are followed a little later by the dainty rose-pink bloom of the Ornamental Flowering Apples (*Pyrus*), the Tulip Tree, and in mid-Summer the Varnish Tree (*Koelreuteria*) bears its yellow blossoms.

As to the most pleasing landscape effect, groups of different varieties of these charming flowering trees planted against the background of evergreen border, or their use as individual specimens, or in groups in the open is to be impartially advised; their appearance is equally charming wherever they are used.

The Flowering Crab Apples (*Pyrus*) listed on opposite page are ornamental little trees clothed with fragrant flowers in Spring, followed by attractive yellow or orange Autumnal fruit.

## Flowering Apples

### PYRUS (*Malus*) *baccata*.

**SIBERIAN FLOWERING CRAB.** Free, robust, round-headed tree with white flowers.

		Per 10
4 to 5 ft. ....	Each \$3 50	\$30 00

**CHINESE FLOWERING CRAB.** Double, deep coral-red flowers. Very showy.

4 to 5 ft. ....	Each \$3 50	30 00
5 to 6 ft. ....	4 50	37 50
6 to 7 ft. ....	6 00	40 00

**P. Toringo. (Sieboldii.)**

**DWARF CRAB.** Small; single white or bluish flowers and small yellow fruit.

4 to 5 ft. ....	Each \$3 50	30 00
5 to 6 ft. ....	4 50	37 50

## The Midsummer and Autumn Landscape

**A**FTER the glorious burst of bloom that heralds the Spring, our shrubberies take on a different aspect; the restful green foliage of Viburnum and Bush Honeysuckle provide a pleasing foil for their handsome ripening berries, and for the snow-white bloom of Hydrangeas and pink Tamarix; and the tall Rose of Sharon puts forth its gay rose-like flowers. Then there are a multitude of low flowering plants like the Spiræas and shrub Horsechestnuts, St. John's Wort with its rich golden blooms and the delicate Arbutus-like flowers of *Abelia*, which keep the shrubberies bright and interesting through the hot drowsy days of Summer.

September brings again another change, from the cool green of Summer to the warmth of red and gold tints in leaf and berry, and, as the gay colors of twig and branch appear through falling leaves, the background of evergreen foliage of Pine and Hemlock shelters lawn and garden from the crisping winds and makes a foil for their bright Autumn coloring. By no means of least importance are the berries of our shrubs, which keep our song-birds and their cheery notes of coming flight with us till late November.

## The Oak

One of the most beautiful of our American trees, long-lived and growing in a wide range of soils is the Oak.

On account of its long life and freedom from injury by storms the Oak is generally looked upon as an extremely slow growing tree. To the contrary some varieties grow quite as fast as our other hard wood trees, notably the Pin and Red Oaks. Both these varieties are admirably adapted to street, avenue and lawn planting, where a handsome permanent tree is required.

### QUERCUS alba.

**WHITE OAK.** Broad, open head; in the Fall purplish-brown leaves, on spreading branches, held through Winter.

		Per 10
4 to 6 ft. ....	Each \$1 50	\$10 00
6 to 8 ft. ....	2 50	20 00
10 to 12 ft. ....	5 00	
12 to 14 ft. ....	7 50	

### Q. bicolor.

**SWAMP WHITE OAK.** Vigorous; holds leaves till early Winter. Prefers moisture.

**Specimens.** 20 to 25 ft. Prices on application.

### Q. cerris.

**TURKEY OAK.** Rapid, vigorous, pyramidal. Attractive oblong leaves.

4 to 5 ft. ....	Each \$3 50
8 to 10 ft.; 1 to 1½ in. ....	7 50

### Q. coccinea.

**SCARLET OAK.** Symmetrical and eminently fitting as a specimen tree, taking on the most gorgeous shades of brilliant scarlet in the Fall and holding its dried leaves during the Winter.

6 to 8 ft. ....	Each \$3 50	\$28 00
8 to 10 ft.; 1¼ to 1½ in. ....	4 50	35 00
10 to 12 ft.; 1½ to 1¾ in. ....	5 00	40 00
12 to 14 ft.; 1¾ to 2 in. ....	7 50	55 00

### Q. laurifolia.

**LAUREL-LEAVED OAK.** Slow growing. Very beautiful dark green leaves.

8 to 10 ft.; 1¼ to 1½ in. B. & B. ...	\$6 50	50 00
10 to 12 ft.; 1½ to 1¾ in. B. & B. ....	7 50	60 00
12 to 14 ft.; 2 to 2½ in. B. & B. ....	10 00	

### Q. macrocarpa.

**MOSSY CUP OAK.** A tree of fine habit and form. Tall with wide spreading head and massive branches; twigs of the branches are covered with a peculiar cork bark which is interesting. The leaves are large and carried late into the Fall. It also bears peculiar deep-cupped acorns with a mossy fringe to the cup and from which it takes its name. There is no better tree for specimen planting.

8 to 10 ft.; 1¾ to 2 in. ....	Each \$5 00	37 50
10 to 12 ft.; 2 to 2¼ in. ....	6 00	45 00
12 to 14 ft.; 2¼ to 2½ in. ....	7 50	60 00
14 to 16 ft.; 2½ to 3½ in. ...	\$10.00 to 15 00	

**QUERCUS palustris.**

**PIN OAK.** Graceful, spreading. Pyramidal habit; deeply cut leaves held late into Winter. Lawn or street.

		Per 10	Per 100
8 to 10 ft.; 1¼ to 1½ in. ....	Each \$2 50	\$20 00	\$150 00
8 to 10 ft.; 1½ to 1¾ in. ....	3 00	25 00	200 00

16 to 18 ft.; 3 to 4 in. ....	\$7.50 to 10 00		

**Larger Specimen Trees.** Tall and spreading, from 5 to 12 inches in diameter. Prices on application.

**Q. Prinus (montana).**

**CHESTNUT OAK.** Tall, irregular; does well in poorest soils.

8 to 10 ft.; 1¼ to 1½ in. ....	Each \$3 00
10 to 12 ft.; 1½ to 1¾ in. ....	3 50
12 to 14 ft.; 2 to 2¼ in. ....	4 00
14 to 16 ft.; 3 to 4 in. ....	\$7.50 to 12 50

**Q. Robur (pedunculata).**

**ENGLISH OAK.** Symmetrical; low spreading, dense head. Leaves stay green till late Fall. 8 to 10 ft. .... Each \$5 00

**Q. Robur, var. Concordia.**

**GOLDEN OAK.** Form of above with bright yellow leaves. Attractive specimen.

12 to 14 ft. B. & B. ....	Each \$10 00
14 to 16 ft. B. & B. ....	15 00

**Q. Robur, var. fastigiata (pyramidalis).**

**PYRAMIDAL ENGLISH OAK.** Slightly resembles Lombardy Poplar; though smaller and slower growing.

6 to 8 ft. ....	Each \$5 00
8 to 10 ft. ....	7 50

**Q. rubra.**

**RED OAK.** Stately, spreading, symmetrical; leaves shining deep green; rich Fall color.

7 to 8 ft. ....	Each \$2 00	17 50	135 00
8 to 10 ft. ....	2 50	16 00	145 00
8 to 10 ft.; 1¼ to 1½ in. ....	3 00	27 50	200 00
10 to 12 ft.; 1½ to 1¾ in. ....	4 00	30 00	240 00
10 to 12 ft.; 1¾ to 2 in. ....	4 50	35 00	280 00
12 to 14 ft.; 2¼ to 2½ in. ....	5 25	40 00	320 00
12 to 14 ft.; 2½ to 2¾ in. ....	6 00	45 00	360 00
14 to 16 ft.; 2¾ to 3 in. ....	7 50	50 00	400 00
14 to 16 ft.; 3 to 4 in. ....	\$7.50 to 10 00		

**Larger Specimen Trees.** Tall and spreading, from 5 to 10 inches in diameter. Prices on application.

**Q. velutina (tinctoria).**

**BLACK OAK.** Tall, open-headed, stately. Retains browned leaves in Winter.

16 to 18 ft.; 2¾ to 3 in. ....	10 00	75 00	

A few large specimens from 20 to 30 ft., 4 to 5 in. caliper. Prices on application.

**SALIX—WILLOW.**

Ornamental trees, rapid growing; good, clean foliage. Especially valuable for Winter coloring of bark. Effective when shown against massed dark evergreens.

**S. babylonica.**

**WEeping WILLOW.** Too familiar to need description. Appropriate for waterside planting.

8 to 10 ft. ....	Each \$3 50
------------------	-------------

**S. pentandra (laurifolia).**

**LAUREL-LEAVED WILLOW.** Quick growing; rich dense foliage of deep shiny green.

6 to 8 ft. ....	Each \$1 50	12 50
-----------------	-------------	-------

**SASSAFRAS variifolium (officinale).**

**SASSAFRAS.** Spreading round top; valuable for screen. Brilliant orange-yellow Fall foliage.

		Per 10
7 to 8 ft. ....	Each \$1 50	\$12 50
8 to 10 ft. ....	2 50	20 00

**SORBUS aucuparia.**

**EUROPEAN MOUNTAIN ASH.** For border plantation, where bright scarlet berries enliven Winter landscape.

7 to 8 ft. ....	Each \$3 50	27 50
-----------------	-------------	-------

**STYRAX japonica.**

**STYRAX.** Low, spreading, symmetrical. For border or specimen planting. One of the finest flowering trees. Nodding white flowers.

4 to 5 ft. Heavy. B. & B. ....	Each \$2 50	20 00
5 to 6 ft. B. & B. ....	3 50	27 50
6 to 7 ft. B. & B. ....	5 00	40 00
7 to 8 ft. B. & B. ....	6 00	50 00
8 to 9 ft. B. & B. ....	7 50	65 00

**SYRINGA japonica.**

**TREE LILAC.** The familiar Lilac blossoms on a small tree. For enlivening screen border.

3 to 4 ft. ....	Each \$2 50	20 00
5 to 6 ft. ....	3 50	27 50

**TAXODIUM distichum.**

**DECIDUOUS CYPRESS.** Tall, thin shape; soft light green foliage against cinnamon bark. Prefers moisture.

7 to 8 ft. ....	Each \$2 50	20 00
8 to 9 ft. ....	3 50	27 50
<b>Specimens.</b> 10 to 12 ft. B. & B. ....	7 50	

**TILIA americana.**

**BASSWOOD, AMERICAN LINDEN.** Large, dense, round-headed tree. Attractive light green foliage.

10 to 12 ft.; 2 to 2½ in. ....	Each \$3 50	27 50
14 to 16 ft.; 2½ to 3 in. ....	4 50	32 50

## The Elm

Holding a distinctive place as a street tree or stately specimen the American Elm has become more widely known than some of the other varieties; these should share with the American species its popularity as they are adapted to a wide range of soils and possess the merit of being fairly rapid growers.

### ULMUS americana.

**AMERICAN ELM.** Vase-shaped head. Peculiarly appropriate for street or lawn planting, giving vaulted cathedral effect.

		Per 10	Per 100
10 to 12 ft.; 1	to 1½ in. ....Each	\$3 00	\$22 50
10 to 12 ft.; 1½	to 1¾ in. ....	3 50	25 00
12 to 14 ft.; 1¾	to 2 in. ....	4 00	30 00
12 to 14 ft.; 2	to 2¼ in. ....	4 50	35 00
14 to 16 ft.; 2¼	to 2½ in. ....	6 00	40 00
14 to 16 ft.; 2½	to 2¾ in. ....	7 00	47 50
14 to 16 ft.; 2¾	to 3 in. ....	9 00	60 00

**Specimens.** 16 to 18 ft.; 3½ to 4 in.

\$10.00 to 20 00

### U. campestris.

**ENGLISH ELM.** Round-topped, densely branched; retaining leaves longer than American Elm. Avenue or lawn.

8 to 10 ft.; 1	to 1½ in. ....Each	\$3 00	25 00
10 to 12 ft.; 1½	to 2 in. ....	4 00	30 00
12 to 14 ft.; 2	to 2¼ in. ....	5 00	
12 to 14 ft.; 2¼	to 2½ in. ....	6 00	

**Specimens.** 14 to 16 ft.; 2¾ to 3 in. .. 9 00 60 00

**Specimens.** 14 to 16 ft.; 3½ to 4 in.

\$10.00 to 20 00

### U. campestris, var. Wheatleyii.

**CORNISH ELM.** Pyramidal head; small dark green leaves. Stands clipping well. Avenue or formal allée.

10 to 12 ft.; 2	to 2½ in. ....Each	\$5 00	37 50
12 to 14 ft.; 2½	to 2¾ in. ....	6 00	45 00
14 to 16 ft.; 2¾	to 3 in. ....	9 00	75 00

**Specimens.** 16 to 18 ft.; 3½ to 4 in.

\$10.00 to 15 00

### U. glabra (scabra—montana).

**SCOTCH or WYCH ELM.** Broad, round-topped head; spreading branches.

10 to 12 ft.; 1½	to 2 in. ....Each	\$3 50	27 50
14 to 16 ft.; 2	to 2½ in. ....	5 00	35 00

14 to 16 ft.; 3	to 4 in. ...	\$7.50	to 15 00

### U. glabra, var. Dampieri.

**FASTIGIATE SCOTCH ELM.** Like Lombardy Poplar in shape, but longer-lived and richer, darker green.

10 to 12 ft. ....	Each	\$7 50
12 to 14 ft.; 2	to 2½ in. ....	10 00

An Effective Border Planting of Shrubs and Trees Screens the Street  
and Adds Charm and Interest to the Grounds

## The Shrubby Border

**T**HEIR cheery blossoms among the earliest harbingers of Spring, a wealth of bloom throughout the Summer, and an Autumnal burst of vivid color in leaf, berry and twig, make the shrub borders a continuous source of interest and delight throughout the year. There can be no more beautiful enframement for lawn or garden than the border of shrubs accentuated here and there with evergreens or small flowering trees, sheltering the hardy herbaceous plants which form its boundary, a pleasant screen against drive or road, and shutting out from the beauty of our surroundings some obnoxious view.

We regard the breaking bud in early Spring with delight, for with it comes a realization that Winter's backbone is broken. All through the cold months we have watched the jealously-folded bud with the anticipation of gay flowers to come. An infinite variety of shrubs herald Spring's advent with riotous bloom. Among the first are the Azaleas, choice dwarf shrubs with radiant colors so effective against evergreens; the Magnolia, tall and graceful, whose magic blossoms appear almost overnight after the first warm days of Spring, and the flowering Dogwood appear after the jauntily flowered Golden Bell have spread their mist of yellow in the shrubberies. Later come the pink and white of the *Weigelias* and *Deutzias*, the graceful charm of stately Lilacs in rich coloring of many varieties, and Bush Honeysuckles and Mock Oranges with their wealth of handsome bloom.

## Deciduous Shrubs

### NATIVE AZALEAS

Small shrubs adapted for massing in shrubby borders and naturalizing in woods. Prolific bloomers extending over a period from April to June; showy among evergreens. Under Evergreen Shrubs will be found many other varieties of great beauty; see page 31.

**AZALEA.** See also page 31.

#### A. arborescens.

**FRAGRANT WHITE AZALEA.** Broad, bushy; flowering in June; leaves turning bronze in Fall.

**GOLD FLOWER.** Large yellow flowers on low graceful stems in mid-Summer. For edge of the shrub border or garden.

2 year	Each \$0 75	6 00	
--------	-------------	------	--

An Effective Border of Flowering Shrubs. Brilliant with Showy Berries in the Fall

## Berried Shrubs for Fall and Winter

**T**HE shrub border is poorly planned if it does not include some of the handsome berried varieties which, from late Summer until well into the Winter, add their charm of bright colors ranging from white to blue, black and scarlet. Their brilliant berries make most attractive house decorations and fill the shrubberies with song birds.

A background of Evergreen trees adds to the beauty of the bright berried shrubs, making appropriate contrasts to their brilliant coloring and harboring the birds. Many of the Evergreens also have berries like the Junipers, Yews and Hollies and the Evergreen Thorn with its flaming scarlet berries in great clusters and the black-berried Japanese Hollies.

Some of the shrubs whose berries are especially attractive are the Aronias, Barberries, Dogwoods, Cotoneasters, Eleagnus, Evonymus and Ilex in both deciduous and evergreen varieties, the Privets and Bush Honeysuckles, Myrica, Rhamnus, Rhodotyus, Sumacs, Elderberries, Symphoricarpus and the Viburnums.

**ILEX.** See also pages 8, 37, 38.

**I. Sieboldii (serrata).**

<b>RED-FRUITED JAPANESE WINTER-BERRY.</b>		Per 10	Per 100
Branches covered with holly-like berries.			
Plant with evergreens in border.

6 to 7 ft. ....	2 00	10 00	60 00

## “Where Nothing Grows”

**H**OW often do we complain of the spot in the deep shade of old trees, or on the north side of the house “where nothing grows”? These bare patches of soil can be transformed into places of beauty and clothed with green throughout by the use of carpets of low shade-loving evergreens, like *Euonymus*, English Ivy, Periwinkle or Myrtle, Japanese Spurge (*Pachysandra*), dwarf St. John’s Wort, and the rapid-growing Honeysuckle (*Lonicera japonica*). In colonies in these green carpets a wide range of shade-loving perennials thrive, and find a charming setting; the Lily-of-the-valley, *Anemone pennsylvanica*, Forget-me-nots; blue Harebells and golden Moneywort and graceful Ferns will make a charming transformation of these shady spots. Steep sunny slope and bank can be made a thing of beauty with Yellow Root (*Xanthorrhiza*) of pretty foliage and purplish blossom, or with the equally rapid-growing Hall’s Honeysuckle or trailing Japanese Rose (*Rosa Wichuriana*), and spreading *Forsythia suspensa*. A wide range of plants from many climes gives us the opportunity to beautify each bare and ugly spot.

The Handsome Flower of Bush Honeysuckle

**LONICERA—BUSH HONEYSUCKLE.**

These strong growing shrubs, especially the Tartarian varieties, are invaluable in the border plantation and mass plantings. Tall growing twiggy plants covered with blossoms in Spring, followed by showy red and yellow berries in mid-Summer and early Fall.

**L. fragrantissima.**

**FRAGRANT BUSH HONEYSUCKLE.** Tall, open grower; fragrant white flowers, dark foliage till late in Fall.

## The Rhododendron Border

**R**HODODENDRONS thrive best in masses or groups and are handsomest where their beautiful colors are set off by a background of the dark green of Evergreen Trees, or in a corner of house or wall clothed with evergreen vines. At the edge of the Rhododendron border and blending it into the lawn the dwarf growing Junipers, Yews, Azaleas and Evergreen Euonymus are particularly appropriate.

**ROBINIA hispida.**

**ROSE ACACIA.** Medium height; pendulous rose flowers in late Spring. A pretty border shrub.

		Per 10	Per 100
--	--	--------	---------

-----------------	------	------	-------

**S. nigra, var. aurea.**

**GOLDEN ELDER.** Upright, with golden foliage. All will thrive in moist places.

3 to 4 ft. ....	Each \$0 75	5 00	35 00
-----------------	-------------	------	-------

4 to 5 ft. ....	1 00	6 00	40 00
-----------------	------	------	-------

**SORBARIA lindleyana.**

**SPIRÆA.** Medium height; spreading habit; spikes of white flowers in Summer.

3 to 4 ft. ....	Each \$1 00	5 00	35 00
-----------------	-------------	------	-------

**S. sorbifolia.**

**ASH-LEAVED SPIRÆA.** Vigorous shrub, large compound leaves; white flowers in Summer.

3 to 4 ft. ....	Each \$1 00		
-----------------	-------------	--	--

**SPIRÆA.**

A species of shrubs useful on every place—in garden, lawn, about the house and at edges of border planting. They include medium and dwarf varieties, blooming from early Spring to mid-Summer.

**S. Bumaldi, var. Anthony Waterer.**

A medium grower; rose-pink flowers in Summer; for garden or borders.

15 to 18 in. ....	Each \$0 75	6 00	50 00
-------------------	-------------	------	-------

**S. Reevesiana.**

A tall grower. Single white flowers in Spring. Similar to *Van Houtteii*.

3 to 4 ft. Heavy .....	Each \$1 00	6 00	40 00
------------------------	-------------	------	-------

4 to 5 ft. Heavy .....	1 25	7 50	50 00
------------------------	------	------	-------

**S. Reevesiana fl. pl.**

A tall double-flowered form.

3 to 4 ft. ....	Each \$1 00	6 00	40 00
-----------------	-------------	------	-------

**S. thunbergii.**

Medium shrub; spreading branches; light green foliage; pure white flowers in earliest Spring.

2 to 2½ ft. ....	Each \$0 50	\$4 00	\$35 00
------------------	-------------	--------	---------

2½ to 3 ft. ....	75	6 00	40 00
------------------	----	------	-------

3 to 4 ft. ....	1 00	8 50	50 00
-----------------	------	------	-------

**SPIRÆA Van Houtteii.**

**BRIDAL BOWER.** Medium height; of merit for lawn specimen or massing; white flowers in May.

		Per 10	Per 100
2 to 3 ft. ....	Each \$0 75	\$4 00	\$35 00
3 to 3½ ft. ....	1 00	5 00	

**STAPHYLEA colchica.**

**BLADDER NUT.** Tall growing; fragrant white flowers in late Spring; attractive seed pods.

2 to 3 ft. ....	Each \$0 75	5 00	
3 to 4 ft. ....	1 00	6 00	

**STEPHANANDRA flexuosa (Lace Shrub).**

2 to 3 ft. ....	Each \$0 75	6 00	
3 to 4 ft. ....	1 00	8 50	

**STYRAX japonica. (See Trees.)**

**SYMPHORICARPOS racemosus.**

**SNOWBERRY.** Low, shade-loving plant; rose-white flowers in Summer; large white berries in Winter.

2 to 3 ft. ....	Each \$0 75	5 00	35 00
-----------------	-------------	------	-------

**S. vulgaris.**

**CORAL BERRY.** Dwarf shrub thriving in shade; coral-red berries persistent until late Winter.

3 to 4 ft. ....	Each \$0 75	3 50	25 00
-----------------	-------------	------	-------

**SYRINGA japonica. (See Trees.)**

**S. Josikæa.**

**HUNGARIAN LILAC.** Tall grower; valuable for late purple flowers; dark green foliage.

2 to 3 ft. ....	Each \$0 75	6 00	
3 to 4 ft. ....	1 00	7 50	

**S. Rothamagensis.**

**ROUEN LILAC.** Slim branches, delicate foliage; flowers intense violet blue.

2 to 3 ft. ....	Each \$0 75	5 00	40 00
3 to 4 ft. ....	1 00	7 50	50 00

**S. villosa.**

**HIMALAYAN LILAC.** Vigorous bush; late May bloomer, light purple in bud and white when opened, fragrant.

2 to 3 ft. ....	Each \$1 00	7 50	60 00
-----------------	-------------	------	-------

**S. vulgaris.**

**COMMON LILAC.** An old-fashioned favorite of well-proven worth.

3 to 4 ft. ....	2 50	20 00
4 to 5 ft. Clumps .....	5 00	

<b>Michael Buchner.</b> Double. Pale Lilac.		
2 to 3 ft. ....	Each \$2 00	16 50

<b>President Grevy.</b>		
5 to 6 ft. Clumps .....	Each \$7 50	

<b>Rubra de Marley.</b> Single. Reddish Purple.		
3 to 4 ft. ....	Each \$2 00	16 50
4 to 5 ft. ....	\$2.50 to 5 00	

<b>Souvenir de Ludwig Spaeth.</b> Single. Red.		
2 to 3 ft. ....	Each \$1 00	8 50
3 to 4 ft. ....	2 00	16 50
4 to 5 ft. ....	\$2.50 to 5 00	

## TAMARIX—Tamarisk.

<b>T. africana.</b>		
5 to 6 ft. ....	Each \$0 75	6 00

<b>T. juniperiana (plumosa).</b>		
Pink flowers.		
5 to 6 ft. ....	Each \$0 75	5 00

<b>T. odessana.</b>		
Medium height; pink flowers July to September.		
5 to 6 ft. ....	Each \$0 75	5 00

## VACCINIUM corymbosum.

**HIGH BUSH BLUE BERRY.** Handsome pinkish-white flowers; edible blue berries; will grow in moist or dry soils.

2 to 2½ ft. Clumps .....	Each \$1 75	15 00
2½ to 3 ft. Clumps .....	2 50	20 00
3 to 3½ ft. Very Heavy.....	\$3.50 to 5 00	

**VIBURNUM.**

Ornamental hardy shrubs meriting extensive use in all plantings, in gardens, screening plantings and among the border shrubs. Nearly all are large shrubs, with flowers white to pinkish white in flat clusters, followed by red, blue or black fruit of great beauty. Their foliage is also most attractive, assuming bright hues in the Fall. Will grow in any soil, in sun or partial shade.

Per 10      Per 100

**V. acerifolium.**

**DOCKMACKIE.** Dwarf, spreading by root stems; white flowers; fruit black. Useful in shade places.

2 to 3 ft. ....	Each \$0 75	\$6 00	\$45 00
3 to 4 ft. ....	1 00	7 50	50 00

**V. carlesii.**

**BOUVARDIA SHRUB.** Dwarf; fragrant pinkish-white flowers blooming over a long period. An exceptional new garden sort.

1½ to 2 ft. ....	Each \$2 50	22 50	
------------------	-------------	-------	--

**V. cassanoides.**

1½ to 2 ft. ....	Each \$0 75	5 00	
------------------	-------------	------	--

**V. dentatum.**

**ARROW-WOOD.** Upright, Fall growing; white flowers; black fruit; foliage richly colored in Fall.

4 to 5 ft. Very Heavy Clumps..	Each \$1 50	12 50	100 00
Specimens. 5 to 6 ft. Clumps.....	2 50		

**V. dilatatum.**

**JAPANESE BUSH CRANBERRY.** Tall; white flowers; scarlet fruit.

2 to 3 ft. ....	Each \$1 00	7 50	
3 to 4 ft. ....	2 50	20 00	
4 to 5 ft. ....	3 50	30 00	
Specimens. 5 to 6 ft. ....	5 00		

**V. lantana.**

**WAYFARING TREE.** Tall; upright; fruit, red changing to black.

2 to 3 ft. ....	Each \$0 75	5 00	35 00
3 to 4 ft. Very Heavy .....	1 00	6 50	

**V. lentago.**

**SHEEP BERRY.** Tall; blue-black fruit; leaves glossy dark green.

2 to 3 ft. ....	Each \$0 75	5 00	40 00
3 to 4 ft. ....	1 00	6 50	50 00
4 to 5 ft. Extra Heavy .....	1 25	8 50	75 00
Specimens. 6 to 8 ft. B. & B.	\$3.50 to 5 00		

**VIBURNUM molle.**

**SOFT-LEAVED VIBURNUM.** Medium height, upright; handsome foliage; fruit bluish-black.

		Per 10	Per 100
2 to 3 ft. ....	Each \$0 75	5 00	40 00
3 to 4 ft. ....	1 00	6 00	45 00

---	------	-------

Standard Wistarias in a Flower Garden

## Vines and Ground Covers

VINES and climbing roses fill a distinctive need in softening and blending architectural forms with the rest of the planting about house and garden. The climbing Ivies and Evonymus used on uninteresting walls relieves their monotony and bareness and other climbers on trellis or arbor admirably frame window and doorway in green and blossom.

Pergolas and arbors shaded with Wistaria, the rapid-growing Kudzu Vine, the scarlet flowered Trumpet Vine, Clematis or Honeysuckle are features of beauty and utility. There can be no better or more effective screen against unsightly objects than a vine-covered trellis or high fence;—the quick-growing Honeysuckle is one of the best vines for this purpose as it holds its foliage well into the Winter.

We find these vines and trailing plants together with some of the trailing shrubs of great value in clothing unsightly slopes with verdure. These slopes and banks are often a source of trouble on account of the surface washing or slipping during heavy rains, but the inter-lacing roots of Honeysuckle, Periwinkle or Bittersweet will obviate this difficulty. *Forsythia suspensa*, *Rosa wichuriana*, *Lycium chinense* and Yellow Root are also adapted for this use.

For carpeting bare patches of soil in shady places where grass will not grow we have the evergreen English Ivy, Japanese Spurge (*Pachysandra*) Periwinkle and *Lonicera Japonica*, which form a carpet of green in what would otherwise be an ugly spot.

One of the most useful and interesting plants for filling in odd corners near walls or steps, along the base of house or terrace or as a pretty edging plant for Evergreen borders there is the very hardy *Evonymus* in a number of varieties.

## Vines, Climbing and Trailing Plants

Vines are an essential to every place—there are walls, fences, arbors, unsightly banks and odd corners to be covered. A selection for every purpose can be made from the following varieties.

		Per 10	Per 100
<b>ACTMEDIA polygama.</b>			
2½-in. pots .....	Each \$0 50	\$3 00	
<b>AKEBIA quinata.</b>			
<b>FIVE FINGERED VINE.</b> Shiny foliage; clusters of small chocolate colored, fragrant flowers.			
5-in. pots .....	Each \$1 00	5 00	
<b>AMPELOPSIS quinquefolia.</b>			
<b>VIRGINIA CREEPER.</b> Rapid growing for fences, rocky slopes and banks; Fall foliage rich crimson.			
5-in. pots .....	Each \$0 75	5 00	
<b>A. quinquefolia, var. Engelmanni.</b>			
<b>ENGELMANN'S CREEPER.</b> Similar to previous sort, but will cling to walls.			
5-in. pots .....	Each \$0 75	5 00	
<b>A. tricuspidata. (Veitchii.)</b>			
<b>BOSTON IVY.</b> Strong, clinging vine of rapid growth; good Fall color. Best for walls.			
3-in. pots; heavy .....	Each \$0 50	3 50	25 00
<b>ARISTOLOCHIA siphocampyl.</b>			
<b>DUTCHMAN'S PIPE.</b> Strong vine; large light green leaves; purplish pipe-like flowers.			
5-in pots .....	Each \$1 50	12 50	
<b>BIGNONIA capreolata.</b>			
3 to 4 ft.; field-grown .....	Each \$0 75	5 00	
<b>B. grandiflora.</b>			
<b>TECOMA.</b> Large brilliant orange red flowers.			
3 to 4 ft.; field-grown .....	Each \$0 75	5 00	
<b>B. radicans.</b>			
<b>TRUMPET VINE.</b> Strong climber with orange flowers in mid-Summer.			
2 to 3 ft.; field-grown .....	Each \$0 75	4 00	
<b>CELASTRUS scandens.</b>			
<b>BITTER-SWEET.</b> Rapid-growing; orange-yellow fruit. Its rank growth makes it useful on rough banks in billowy masses.			
3 to 4 ft.; heavy; field-grown .....	Each \$0 75	5 00	\$25 00

**CLEMATIS coccinea.**

**RED CLEMATIS.** Rapid growing, covered in Summer with coral-red flowers.

4-in. pots .....	Each \$1 00	Per 10	Per 100
		\$7 50	

**C.—Large Flowering.**

Henryi, white; Jackmani, purple; Duchess of Edinburgh, white, double; Mme. Edouard Andre, red .....

Each \$1 00

**C. paniculata.**

**BRIDAL BOWER.** Rapid grower, handsome foliage, absolutely covered with white fragrant flowers in late Summer....

Each \$0 75	5 00	\$40 00
-------------	------	---------

**C. virginiana.**

**WOOD CLEMATIS.** Similar to last, but more open grower. Use for banks and walls.

4-in. pots .....	Each \$0 75	5 00	
------------------	-------------	------	--

**EVONYMUS.** See also pages 38 and 82.**E. radicans. (Evergreen.)**

**EVERGREEN CREEPER.** For buildings or ground cover; slow growing.

2-year; field-grown .....	Each \$0 75	3 50	25 00
---------------------------	-------------	------	-------

**E. radicans variegata. (Evergreen.)**

**VARIEGATED EVERGREEN CREEPER.** Similar to last, but leaves variegated with creamy white and pink.

1-year; field-grown .....	Each \$0 50	3 50	25 00
2-year; field-grown .....	75	4 00	30 00

**E. carrieri. (Evergreen.)**

**CARRIER'S CREEPER.** Large, handsome, glossy, evergreen leaf; climber for buildings and walls.

2-year; field-grown .....	Each \$0 50	4 00	30 00
Extra heavy stock .....	75	6 00	35 00

**E. vegetus. (Evergreen.)**

**BROAD LEAVED CREEPER.** Scarlet fruited, strong growing evergreen vine. Handsome foliage. Use as ground cover.

2-year; field-grown .....	Each \$0 50	4 00	25 00
3-year; extra heavy .....	75	6 00	35 00

**HEDERA helix.**

**ENGLISH IVY.** Evergreen, strong growing, clinging vine. Use on walls or ground covering in shade.

3-in. pots .....	Each \$0 75	5 00	35 00
------------------	-------------	------	-------

**LONICERA—Honeysuckle.****L. japonica, var. Halleana.**

Dark, glossy green foliage; fragrant flowers from July till Fall. One of the best as fragrant thick screen on lattice or porch.

3-in. pots .....	Each \$0 50	3 50	20 00
4-in. pots .....	75	5 00	25 90

**PERIPLOCA græca.**

**SILK VINE.** Excellent porch vine; dark green foliage; purple flowers in July. Per 10  
 3-in. pots .....Each \$0 75 \$5 00

**SCHIZOPHRAGMA hydrangeoides.**

**CLIMBING HYDRANGEA.** Strong growing, clinging vine with handsome Hydrangea-like flowers.  
 Strong plants in pots.....Each \$3 50

**VITIS—Grapes.**

Useful for covering rough walls, fences and trees; rapid growers; large handsome foliage.

**V. æstivalis.**

**SUMMER GRAPE.** Fruit small and black.  
 Field-grown .....Each \$1 00 7 50

**V. Labrusca.**

**FOX GRAPE.** Fruit purplish-black to brown.  
 Field-grown .....Each \$1 00 7 50

**WISTERIA chinensis.**

**CHINESE WISTERIA.** Hardy climber with families of large violet-blue flowers. Trellis, porch and arbor work.  
 2 to 3 ft. ....Each \$1 50 10 00

**W. CHINENSIS STANDARDS.**

Large heads covered with violet-blue flowers; handsome foliage; for garden. Stems four feet high.

**Specimens.** Standards. 5 to 7 ft.; 4 to 5 ft. stems .....Each \$15.00 to \$20 00

**W. chinensis alba.**

**WHITE WISTERIA.** Same as above, but with white flowers.

Heavy; field-grown; 3 to 4 ft.....Each \$2 50 20 00  
 Heavy; field-grown; 4 to 5 ft..... 3 50 30 00

**W. Multijuga**

A Japanese species. Immense panicles of deep purple.

2 to 3 ft.; field-grown .....Each \$1 50 13 50

## Reeds and Grasses

**BAMBUSA Metake.** A fine semi-evergreen undergrowth .....Per 10  
 .....Each \$1 00 \$6 50

**ERIANTHUS Ravennæ.** Clumps ..... 1 00 6 50

**EULALIA Japonica, and vars. variegata, gracillima univittata, zebrina.** Clumps. 1 00 6 50

## Roses

**F**ROM the earliest times we know that where any attempt at gardening was made at all, great dependence was laid on the Rose. The Persian garden has handed down a race of Roses and the medieval gardens gave us others and so down to the present time gardeners have vied with each other to produce new and wonderful varieties of the classic plant. In consequence there is now a Rose for every situation; the bush Roses for the shrubbery border, the trailing Roses for covering steep banks, the old-fashioned Moss Roses, the Hybrids, and the Everblooming Tea Roses for the garden.

### Cultural Directions

**Preparation of the Ground.** Always select an open, sunny place, exposed to full light and air. Roses appear to best advantage when planted in beds or masses. Roses will grow in any fertile soil, but are much improved in bloom, fragrance, and beauty by rich soil, liberal manuring, and good cultivation. The ground should be subsoiled and well spaded to the depth of two feet or more, and enriched by digging-in good cow-manure or other good fertilizing material. Roses are gross feeders and require a quantity of manure. Renew old beds by decayed sods taken from old pasture-land.

**Planting.** When the ground is thoroughly prepared—fine and in nice condition—put in the plant slightly deeper than it was before, spread the roots out evenly in their natural position, and cover them with fine earth, taking care to draw it closely around the stem, and pack firmly with the hand. It is very important that the earth be tightly pressed down on the roots. Budded Roses should be planted 3 inches below the bud, but in all cases avoid deep planting. A mulch of litter will be found very beneficial.

**Pruning.** Old and decayed branches and at least half the previous season's wood should be cut away early each Spring, and a little cutting-back after the first blooming will insure more late flowers. Climbing and Pillar Roses should not be cut back; but the tips of the shoots only should be taken off, and any weak or unripe shoots cut out altogether.

### Fall and Winter Treatment

In the Fall the Rose-beds should have a good dressing of stable manure or other fertilizer. The Winter rains will carry the strength to the roots, and the remaining matter makes a nice mulch, which in many places is all the protection necessary. Where the Winters are not very severe, tender Roses may be covered with clean rye-straw, leaves, or evergreen branches, not too thickly, but so as to permit considerable circulation of air and not to retain water; nothing should be used that will ferment, heat, or rot. The object of covering is to break the force of sudden and violent changes, particularly in March, when the plants should be protected from the sun rather than from cold, the sudden thawing of the frozen wood doing the damage.

### CLIMBING ROSES

On arbor, porch or trellis, the showered glory of the climbing rose makes its appeal in simplicity and charm.

**\$1.00 each**

American Beauty, rose pink.

Christine Wright, double—wild rose pink.

Dorothy Perkins, shell pink.

Dr. Van Fleet, flesh pink.

Lady Gay, cerise.

Silver Moon, semi-double—pure white.

Tausendschon, soft pink. 4-in. pots.

White Dorothy Perkins.

### EVERBLOOMING HYBRID TEA ROSES

These hybrids are among the choicest, for their fragrant flowers are borne continuously from early June till the late frosts of autumn. In the Northern sections of the country they require the protection of a mulch of straw or soil in Winter.

**\$1.00 each, \$8.50 per 10**

**Not less than five plants of a variety at the ten rate**

A Herbaceous Border that will furnish a succession of cut flowers for the house

## Hardy Herbaceous Perennials

**T**HERE is a strong appeal in the gardens of old farmhouse and cottage with the glowing yellow and orange Day-lilies, bright flowered Phlox and Peonies, and their show of hardy Chrysanthemums; a demonstration of the ease with which these plants are grown and the little care they require when one thinks how little time the busy country housewife can spend in gardening. The old-fashioned perennials have been enriched with many improved varieties and species, and every corner of the grounds can be kept bright throughout the whole growing season; the tall growing varieties can be effectively planted in the shrubberies, their flowers showing against the background of evergreen or shrub, and the lower sorts blending the edge of shrubbery and lawn in naturalesque borders, or the wood edge made gay with some of the Asters, Foxgloves, Ferns and many others.

Of flowering plants, two things are demanded—Varieties which will brighten our lawns and gardens, and which can be cut for house decoration—these hardy herbaceous plants reward us bounteously in both requirements. The height, color and flowering season of each variety are given in the following list. The tall growing varieties should be planted about eighteen inches apart and the lower-growing sorts about ten.

Quantities of 5 and 50 of a variety will be furnished at the 10 and 100 rates, respectively; quantities of less than five plants of one sort are sold at the ten-rate, plus 50%.

Hardy Chrysanthemums Bright in the Autumn Sunshine

When frost has browned the other flowers of the garden, these hardy plants burst forth in a profusion of bloom, in colors which seem to catch the most delicate tints and shades of bronzing leaf and gorgeous autumn sunset, while some foretell the purest white of coming snow, and pink of purpling shadows.

Planted in the hardy garden, border or lawn at edge of shrubbery, they will yield a wealth of bright flowers in late autumn, and fill the house with cut flowers.

### HARDY CHRYSANTHEMUMS—POMPON VARIETIES

For Spring Delivery.

**\$3.50 per 10; \$25.00 per 100**

**FLEUR-DE-LYS OR HYBRID FLAG (Iris Germanica)****\$3.50 per 10; \$25.00 per 100**

**Bossnet No. 265.** Tall; standard petals purplish bronze; fall petals, purple.

**Cengalti No. 251.** Standard petals light blue, veined with dark blue; fall petals veined and purple tinted.

**Celeste No. 273.** Satiny blue.

**Cordelia No. 252.** Standard petals pale blue; fall petals rosy pink.

**Delicata No. 267.** Tall; standards; yellow tinted; falls dashed with purple.

**Edina No. 253.** Clear satin blue, marked with dark blue.

**Eytharia No. 254.** Tall; a very light purple tinted variety, veined with purple; very delicate.

**Gazelle No. 256.** Standard petals white, heavily frilled with clear blue; fall petals white, edged blue.

**Henricart De Thierry.** Standards light blue; falls deep rich blue.

**Hortense No. 257.** Tall; light yellow, tinted with brown veins. One of the lightest varieties.

**La Tristesse No. 271.** Standard petals dull yellow bronze; fall petals veined with maroon, dashed with purple.

**Mexicana No. 274.** Dwarf. Standard petals yellow; fall petals veined with purple. Very distinct.

**Penelope No. 260.** Light bluish white, veined with violet; a striking and distinct variety.

**Queen of May No. 261.** Standard petals rosy lilac, veined with yellow. Tall. Distinct.

**Rolandiana No. 275.** Standard petals blue; fall petals reddish-purple.

**Thorbecke No. 263.** A very delicate sulphur-yellow.

**Walneriana No. 277.** Standard petals deep lavender-blue; fall petals clear bright blue.

**King of Blues No. 278.** Deep dark blue. Early.

**Cyclops No. 280.** Standard petals blue; fall petals purple; marked very distinctly near base of petals with white.

**Planting Perennials**

**T**HE first thing to be considered is the proper preparation of the soil. The beds, enriched with well-rotted manure, should be dug deep, especially if there is a clay bottom, which should be broken through to give the bed proper drainage and permit deep rooting of the plants, so that they will withstand the drought of summer.

The Decorative Blooms of Japanese Iris make it an Admirable Flower for Cutting

**JAPANESE IRIS (*Iris Kämpferi* or *laevigata*)**

**\$5.00 per 10, \$35.00 per 100**

Of all the Iris family none equal the Japanese. The large blooms, carried well above the foliage, are gorgeous in their coloring, which ranges from purest white to deep purples, indigo blues and mahogany red, between which there is a wonderful array of tints and mottlings. To see our collection a visit to Andorra in June is worth while; or better buy a full set.

- Anne Boleyn No. 2. Royal purple flaked with white.
- Apple Blossom No. 4. Light ground suffused with rosy purple.
- Blue Danube No. 7. Deep indigo-blue with violet shadings.
- Diana No. 12. Reddish purple flaked with white.
- Dinah No. 13. Purple flaked with white.
- Goldbound No. 18. Pure white, six petaled.
- Hanniball No. 21. Porcelain lined with rose purple and lavender.
- Hyde Park No. 22. White marbled with reddish purple.
- Mahogany No. 26. Deep velvety mahogany red.
- Mt. Hood No. 28. Violet-red shading deep blue toward center.
- Neptune No. 30. Rosy-purple, suffused with light blue.
- Oriole No. 32. Purple amaranth.
- Princess Clothilde No. 36. Ash gray blushed with purple.
- Pyramid No. 38. Deep violet-purple veined with white.
- Robt. Craig No. 41. French grey, violet tinted.
- Shadow No. 42. Deep blue shading to indigo.
- Snowbound No. 54. Pure white, three petaled.
- Templeton No. 45. Violet-purple marbled with white.
- Vesta No. 48. Distinctly veined with purple.
- Victor No. 49. Porcelain veined with blue.
- Zenobia No. 52. Light ground suffused with bright reddish-purple.

Rich in Form and Color the Peony is a Fine Cut Flower

### PAEONIA—PEONIES

Rich in an infinite variety of color, from white through tints of pink and rose, to darkest crimson, these hardy plants grace garden, bed or border with gorgeous bloom in May or June, and their fragrant flowers are most decorative when cut for the house or porch. Whether against a background of evergreens or shrub border, or in the garden, they yield a rich return in blossoms. They are best transplanted in August or September, but may be moved in very early spring, and should be planted about two feet apart in good ordinary garden soil.

We are making some changes in our extensive plantations of peonies, and can offer strong plants from some of the best varieties, in assortment, for fall planting, at exceptional values.

**Garden Assortment of Mixed Colors**  
\$4.00 per 10 plants; \$35.00 per 100 plants

## Ferns

50c each, \$4.00 per 10, \$35.00 per 100.

- ADIANTUM pedatum** (Maidenhair Fern). 1 to 2 ft. Moist, shaded positions.
- ASPIDIUM acrostichoides** (Christmas Fern). 1 to 2 ft. Evergreen. Dry or moist soils in shady places.
- A. Felix-mas** (Male Fern). 2 ft. Semi-shaded positions, dry or moist soils.
- A. Goldianum**. 2 to 4 ft. Semi-shaded positions, dry or moist soils.
- A. marginale**. Evergreen. 1 to 2 ft. Shaded positions, dry or moist soils.
- ASPLENIUM Filix-fœmina** (Lady Fern). 2 to 3 ft. Open or shaded positions, in moist or dry soils.
- BOTRYCHIUM virginianum** (Moonwort). 6 to 12 in. Shaded positions, moist or dry soils.
- DICKSONIA punctilobula** (Boulder Fern). 2 to 3 ft. For open positions; forms large plantations.
- ONOCLEA sensibilis** (Sensitive Fern). 1 to 2 ft. For open planting and wet soils.
- O. Struthiopteris** (Ostrich Fern). 2 to 4 ft. For open positions, dry or moist soils.
- OSMUNDA gracilis** (Flowering Fern). 2 to 4 ft. Open or shaded positions, and moist soils.
- O. Claytoniana**. 2 to 5 ft. For open plantings, dry or moist soils.
- O. cinnamomea** (Cinnamon Fern). 2 to 5 ft. For open or shaded positions, in wet soils.
- WOODSIA obtusa**. 6 to 12 in. Shady places, in moist soil.
- WOODWARDIA angustifolia** (Chain Fern). 1 ft. Open or shaded positions, in moist soils.

## The Home Fruit Garden

To meet a demand for fruit trees in larger sizes than those ordinarily offered by the fruit nurserymen, we have grown a limited quantity of trees of the best varieties in large sizes, which will obviate the long wait for trees to come into bearing.

Abbreviations.—Summer (s), Fall (f), Winter (w).

<b>APPLES.</b> Extra heavy grades, 6 to 8 ft. ....	Each \$5 00
Benoni (s), Fall Pippin (f), Golden Sweet (s), Spitzenburg (w), Wealthy (f), York Imperial (w), Yellow Transparent (s), Summer Rambo (s), Early Harvest (s), Early Sweet (s), Gravenstein (f), Wealthy (w).

## Helpful Hints on Planning

**W**HILE there are numberless books and magazines dealing in detail with the subjects of soil preparation, cultivation and pruning of hardy trees and plants, we think that a word on some of the problems of *planning* is not amiss.

First of all plan your planting and order the nursery stock well in advance of the planting season, so that the utmost advantage of the seasonal rains will insure success. The Spring planting season starts as soon as frost is out of the ground, when all deciduous trees, shrubs and perennials can be transplanted. Evergreens of all sorts should be transplanted just before the new growth begins, from April till June. In the Fall the procedure is reversed, the Evergreens being ready for transplanting from August to October, when the new growth is mature, while deciduous trees, shrubs and perennials are transplanted from late September until the ground is frozen.

Remember that the cost of preparation, planting and after-care is the same for inferior nursery stock as for the bushy fibrous-rooted stock grown at Andorra and that *results* in planting are of most importance.

Various articles in this Catalog will be helpful in the suggestion of the most effective use of trees and plants and in their arrangement we can take no better guide than Nature where colonies and groups of the same or similar varieties of plants are always the most beautiful and successful in their growth. After all, Nature's reasoning is simple, for trees and shrubs planted in groups close together afford each other a mutual protection and with their shade prevent the drying out of their roots by wind and sun.

Therefore let us plan our planting naturally in borders and groups with here and there a specimen for pleasing contrast, and rather than have the borders present a "spotty" appearance by the use of a great number of varieties obtain the benefit of mass as well as individuality by using a smaller number of well chosen varieties in groups and colonies.

Conditions of soil and exposure vary the problem at times, but as a general guide for use in estimating the quantities of trees and plants required, we give below a few suggestions for assistance in planning. Our booklet, "Planting Instructions," is sent with every order; it contains detailed directions for preparation of soils, planting, pruning and care of our stock.

**Borders and Screens of Evergreen and Deciduous Trees.** (See pages 6, 44, 62, 64, 71 and 81.)

The spacing will vary with the width of the border, but as a general rule estimate the trees about 10 feet apart each way and here and there groups of deciduous trees spaced 12 to 15 feet apart can be introduced. An underplanting of shrubs spaced at about 4 feet will form an effective ground cover.

**Hedges.** (See pages 20 and 21.)

It is important to plant closely and in the case of Privet, it is desirable to plant in double rows. Privet, 9 to 12 inches. For low hedges space 12 to 18 inches; for medium hedges, 18 inches to 2 feet; for high hedges, 2 to 4 feet.

**Evergreen Foundation Plantings.** (See pages 6, 30, 34, 39 and 94.)

Select varieties which according to height will be in scale with the architecture; vary the composition by the use of accenting pyramidal or columnar forms with low rounded or spreading masses. Bear in mind the pleasing contrast of colored needles and foliage and the richness imparted by the flowering Evergreen Shrubs. Estimate plants at an average of three feet apart or less. The use of low Evergreen ground covers planted about 12 inches apart as an irregular edging is attractive.

**Rhododendrons.** (See pages 39 and 94.)

Plant in groups or borders spaced 3 to 4 feet apart.

**Trees.** (See pages 5, 29, 44, 45, 46, 54, 61, 62, 69 and 71.)

We quote a prominent landscape architect in a recent issue of "Landscape Architecture" on the subject of tree planting. "We have noticed during the past summer, as never before, the beautiful effect produced when trees are planted close together. We remember as the most perfect avenue we have ever seen that at Hyde Park on the Hudson. The trees are Oaks and they are (if our memory is right) not over fifteen feet apart in the rows and perhaps not twenty-four feet from one row to the other." The effect of specimen trees is most telling when they are planted in groups.

**Shrub Borders and Boundary Plantings.** (See pages 13, 16, 30, 34, 64, 71 and 81.)

In very few cases should a bed or border be less than an average width of 8 or 10 feet in order to produce a pleasing effect. On large places and parks it will develop into the shrub "plantation" of large extent with the beauty of massed effect. Plant strong growing shrubs at about 4 feet, medium growers at 3 feet and dwarf varieties at about 2 feet or less.

**Roses.** (See pages 98 to 100.) Plant 24 inches apart.**Herbaceous Borders and Gardens.** (See pages 94, 101 to 112.)

Plan your borders and gardens so that there will be a continuous show of flowers by planting closely with varieties intermingled to prevent "bare spots" at any season. An English writer of note once said that there should be "one plant for every square inch," but good results are obtained by estimating one plant per square foot.

Large Nursery-Grown Tree Ready for Moving. Note the Fine Fibrous Roots.

## Large Trees on New Places

THE writer once stood in the portico of an old southern home and looked down an avenue of magnificent live Oaks casting their two-hundred-year-old shade across splendid old Boxwood sentinels standing shoulder high on either side of the door. One marvels at the foresight of that old southern planter who in pre-Revolutionary days set out his sapling Oaks and tiny Boxwood before that stately white-columned house, and at the hard-headed Yankee who lined village street and lawn with Elms or Maples; to-day we reap the benefit as we pass in motor cars beneath these century-old trees. We of this generation are hardly satisfied to wait for years for the adornment and value that large trees always lend to any property—trees and evergreens which will produce a beautiful effect at once on lawn and avenue.

Andorra Nurseries are equipped to supply large trees of thirty to forty feet in height, that are in keeping in size and dignity with our spacious modern houses, these trees at once producing an immediate effect on estates which would otherwise be shadeless and uninteresting for many years. Prominent among the varieties of large trees which we have grown in our nurseries, and which can be successfully moved by truck or freight are Maples, Elms, Oaks, Lindens, Planes and the spreading Beech; among the Evergreens are Pines, Spruces, the Japanese Cypress and great Boxwoods. These large trees are suitable for planting on avenues or lawn.

## Fall Planting

**A** WORD on this subject is not amiss, as there are many rabid advocates of planting only in the Spring, while others as earnestly advise only Fall planting. As a matter of fact, successful transplanting goes on here at Andorra during

Bright Berries, Evergreen Shrubs and Trees  
Enliven the Borders in Winter

practically every month in the year, for with our immense stock this is necessary in order to insure that development of root system which gives Andorra trees and shrubs the distinctive place which they hold in the horticultural world. Just after the top growth has hardened, in August and September, is one of the best times to transplant all sorts of evergreen trees and shrubs; the Fall rains thoroughly settle the earth around them, and a good root growth during the Fall months will in-

sure their success the following Spring.

The planting of deciduous trees and shrubs—those that drop their leaves in Autumn—is most successful if done in October and November, and they are prepared to take advantage of the growth induced by the warm rains of early Spring. A thick mulch which protects the ground around the plants from freezing till late in the Fall is equally beneficial in the Spring, and supplies the needed plant food for rapid growth. Then again, there is the distinct advantage of planting hardy trees and shrubs in the Autumn, as it can be more carefully done in many instances than if put off till the rush of work which always greets us in suburban home or country place with every Spring season.

## Index

**T**HIS catalogue is based on a careful survey of our Nurseries taken every Summer and Winter, and the stock listed herein is *growing at Andorra Nurseries* in the sizes and varieties shown, so that one is enabled to select his requirements in exact sizes for the special purpose at hand, with the full assurance that the plants will be freshly dug (not taken from storage cellars or jobbers' packing cases) and properly packed ready for shipment for long distances, with the assurance of success after transplanting.

For the convenience of our patrons, the catalogue is arranged in groups as shown below, the species being alphabetically listed under their botanical names, as the common names vary greatly in different parts of the country.

The following index will serve for ready reference to Trees, Shrubs and Plants, not only by the botanical names, but by the common names as well.

In addition to the items listed, we have many varieties in quantities too small to offer in a general list; if you do not find the item in this list which you require, write us about it.

Sweet Magnolia (*Magnolia glauca*)

## The Sweet Magnolia

**A** BEAUTIFUL, small, shrubby tree, thriving in any good soil or situation and useful for positions too damp for many trees. The rich, glossy green foliage is glaucous beneath, giving the whole a silvery sheen. The cream-white, waxlike flowers are highly fragrant and the seed-pods which follow open to show brilliant coral seeds.

Used in masses with Evergreens, in the shrub border, as hedges or for specimens it gives added pleasure in any planting.

## ANDORRA NURSERIES

WM. WARNER HARPER, Prop.

Chestnut Hill, Philadelphia, Pa.

Office and Entrance to Andorra

## AN INVITATION TO ANDORRA

THOSE who are interested in landscape art and the beauty of trees and plants out-of-doors are always cordially welcome at Andorra. Excellent highways through this beautiful rolling section of Pennsylvania, with its charm of Colonial manor house and country-place, offer inviting roads from every direction to visitors in motor cars. From Philadelphia by the River Drive (Fairmount Park) continuing up the Wissahickon Drive and Lincoln Drive to Chestnut Hill, thence by Stenton Avenue to City Line, turning left to Andorra.

Train connections over the Chestnut Hill branches of both the Pennsylvania and Reading railroads make Andorra a two-hour run out of New York and a half-hour from the heart of Philadelphia; from Chestnut Hill stations a ten-minute ride on the City Line trolley cars brings one to the gates of the Nurseries.

Situated at the northern entrance of the far-famed Wissahickon Drive through Fairmount Park to Philadelphia, Andorra Nurseries are located in a rolling country offering a great variety of soils and exposures; with this great advantage of soils is coupled a range of temperature from the 20-below zero days of the winter of 1917 to the hot, dry summers of this latitude, so that Hardy Trees, Evergreens and Shrubs, grown at Andorra, assure their success in every part of this country of varied climatic conditions to which their habit of growth fits them.
